

Navigating MSCA Doctoral Networks Programme

The Marie Skłodowska-Curie Actions (MSCA) Doctoral Networks Program is a key funding initiative supporting innovative doctoral training through interdisciplinary and intersectoral collaboration. This workshop provides a comprehensive analysis of the program's structure, objectives, and funding mechanisms, with a particular focus on the eligibility criteria and the role of mobility in fostering research excellence.

Additionally, the session will explore essential elements of proposal development, examining the evaluation criteria of Excellence, Impact, and Implementation. By discussing best practices, strategic alignment with funding priorities, and common pitfalls, the workshop aims to provide participants with actionable insights to enhance proposal competitiveness.

A concluding Q&A session will facilitate discussion, address specific concerns, and identify potential collaborative opportunities within MSCA Doctoral Networks. This workshop is intended to equip researchers with the knowledge and tools necessary to navigate the funding landscape efficiently and optimize the impact of their research proposals.

Join us to unlock new possibilities for doctoral training and interdisciplinary research with MSCA!
